ANNOUNCING The Greatest Phonograph Offer Ever Made in Tulsa The LaSallephone

The Phonograph With the Human Throat

You may perhaps think this statement is exaggerated, but we want you to read the meager description that we are able to give about the LaSallephone here, and the truly wonderful offer we have to make. When you have seen and heard the LaSallephone you will say that every statement made here is conservative, and that we do not do justice to this supreme superphonograph.

WE HAVE ONE OF THE BEST PHONOGRAPHS ON THE MARKET

We want you to hear it. No other proof is quite so convincing as actually seeing and hearing an instrument. Anyone can make claims but seeing and hearing are proofs you cannot deny.

These instruments have been submitted to the severest tests. They have been submitted to artists and critics. They have been played in competition with the best machines of other makes.

We don't ask anyone to accept our word for the truth of these statements. All we ask is that you come in today or any time as soon as you can and make THE TEST and we are willing to rest the verdict on YOUR judgment.

A Few Salient Features of the LaSallephone

Three Point Amplifier Suspension

The amplifier is the part of the phonograph which takes the thread of tone created by the friction of the reproducer's point on the record and swells into a thing of beauty. The LaSallephone amplifier is as perfect as the sound chamber of a master violin. It is constructed entirely of violin wood, seasoned and kiln dried by special process in especially constructed kilns.

Powerful, Long Running, Silent Motor

The double or triple spring motor is another LaSallephone supreme feature. It has double or triple compensating springs, which run smoothly and silently. You will never hear grinding or scratching in the purring motor of the LaSallephone, as you do in listening to many other phonographs. Speed control, an automatic lid lift, and supremely lovely construction of the cabinet are other features you will admire and appreciate.

Don't Take Our Word; Come and Hear It

We don't ask you to take our word for any of these claims. All that we ask is that you come and hear this wonderful instrument. Hear it, compare it with other makes, let them play side by side. You will not question the truthfulness of a single assertion made here. Nothing that money, brains and skill could contribute to making this phonograph the most perfect instrument, has been overlooked in its building.

OUR UNEQUALED OFFER!

The LaSallephone is sturdy, built to last a lifetime. Its lines are artistically beautiful. The workmanship in all details is perfect. It is made in three popular models of Oak, Walnut or Mahogany cabinet, and for a limited time we are offering this superb instrument at the following prices.

RINGWORM ON FACE AND NECK

Sore, Red and Itched Terribly.
Cuticura Heals in 3 Months.

"My trouble was ringworm on my face and neck. At first I had little red pimples in circles, and then they got dry and scaly. The skin around the ringworm was sore and red and itched terribly, and I would scratch. This trouble lasted a good while before I started using Cuticura Soap and Ointment. After I had used them about a month I got relief, and when I used them for three months I was healed. (Signed) Miss Helen Dolan, 644 Reberg St., Baltimore, Md. Cuticura Soap daily and Cuticura Ointment occasionally prevent pimples or other eruptions. They are a pleasure to use, as is also Cuticura Talcum, a fascinating fragrance for perfuming the skin.

A TRIAL WILL CONVINCE YOU.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.
